Preserving Islamic Identity

The urgent need for community facilities in the Eastern Cape

As the Muslim population expands and flourishes in many localities, the need exists to establish such facilities which will preserve the Islamic identity of the next generation. It is a

known fact that when our beloved Nabî ﷺ migrated to Madinah, upon his arrival he first sought to establish a place for Salâh.

Many communities are not by the means to establish

these types of facilities, hence the need for all of us to make a collective effort in this regard and become instrumental in the preservation of Islâm in all areas.

This doubt should never plague one's mind that ... the Madaaris are useless (of no use at all). They are certainly not useless. Their position can be compared to the position of Wudhu in relation to Salaah. Just as Wudhu is necessary for Salaah, these Madaaris are necessary for the propagation and spread of Islam. [At-Tabligh v.20 pg.23]

Vision & Goal

Al Fidaa Foundation continues with this project to establish facilities for Salâh and madrasah in impoverished localities which could serve the Islâmîc needs of the Muslims living there.

We urge you to support and donate towards this WAAJIB (compulsory) MUSALLA & MAKTAB project in the Eastern Cape of South Africa and build a legacy for you and your loved ones which will entail tremendous reward in the Âakhirah!
